

SARDAR PATEL POST GRADUATE INSTITUTE OF DENTAL & MEDICAL SCIENCES

Recognised by Govt. of India, Ministry of Health & Family Welfare & Dental Council of India
Permanently affiliated to Dr. Ram Manohar Lohia Avadh University, Ayodhya

THE JOURNEY

Dental Science is an area that has gained tremendous recognition in recent years. In the past, this important facet of Medical Science was neglected in comparison with mainstream medicine. The ratio of qualified Dental Surgeons was very low as compared to other Medical faculties. This prompted our Founders to establish an Institute of Dental and Medical Sciences along with a General Hospital with the main objective of rendering social and public service to the poor, needy and deserving populace of Uttar Pradesh and neighbouring states along with providing Academic excellence in Dental and Medical Sciences, Training and Research.

The Institute got off to a flying start under the leadership of Honourable Founder Chairman Late Dr. O.P. Chaudhary. It was his zeal, enthusiasm, determination, patience and perseverance that the Institute of Dental and Medical Sciences was setup in 1996, and named 'Sardar Patel Post Graduate Institute of Dental and Medical Sciences' as a tribute to Iron man of India - Sardar Vallabh Bhai Patel, who have been a constant source of inspiration to our honourable Chairman.

The Dental Council of India gave the approval for the BDS course and a permanent affiliation was granted by Dr. Ram Manohar Lohia Avadh University, Ayodhya. O.P. Chaudhary Hospital and Research Centre - a multispecialty hospital too was established within the campus imparting best of Medical Care to the patients. Since then the institution has come a long way and gained numerous accolades in the process. Post Graduate course in dentistry was started in the year 2004.

Today the Institution prides itself in rendering Masters in All branches of Dentistry. Admissions are through the National Entrance Eligibility Test (NEET) only and the Institution is usually one of the first choice for the students amongst all Dental Colleges of North India. The Institute boasts of an accomplished faculty in all departments. The laboratories and clinics are spacious, well-furnished and have state of the art equipments and gadgets, both indigenous and imported to facilitate an excellent environment that is conducive for learning and patient care.

GOALS

Our GOAL is to help students reach their highest potential in the areas of dentistry, intellectual curiosity and personal wellbeing. We are committed in providing our students a wide array of opportunities to explore the best and latest technologies prevailing in dentistry under the guidance of skilled, accomplished and elite faculty members. The institution also aims at promoting innovation and research which broadens their horizons and encourages better learning and exchange of knowledge among students.

We condition our students in such a way that they are absolutely ready to face the real world. We transform them into responsible dentists who have developed their skills, enhanced their knowledge and perfected their craft in such a way that they are able to handle any case that comes their way.

Sardar Patel Postgraduate Institute of Dental and Medical sciences thus, aims at producing superior Dental professionals with strong work ethics who are not only skilled but also empathetic towards their patients.
